

LATERRA x CYRANO

Noya is a medium-early table potato, with a very smooth light yellow skin and good scab resistance. Noya has a good appearance with uniform size distribution even early in the season. Suitable for long term storage.

Table

Maturity	medium early
Plant	medium height fairly rapid development good cover inflorescences normal white flowers
Tubers shape	roundoval shallow eyes large
skin	pale-yellow
flesh	white
Yield	very good
Quality	fairly firm texture free from discoloration high dry matter content good taste
Blight foliage	slightly susceptible
tuber	fairly good resistance
Virus Y	very good resistance
Golden nematode	resistant Ro1,4
Wart	immune
Common scab	moderately susceptible
Drought	fairly good resistance

Remarks: Susceptible to Metribuzin
